Denoto™

One-to-One Wireless Connection
Via Bluetooth

What you will need:

Court Reporter's computer
Bluetooth Dongle (BlueSoleil)
Bluetooth Install CD

Denoto Computer
Bluetooth Dongle (BlueSoleil)
Bluetooth Install CD
Denoto OS

**BlueSoleil Setup on Both computers:**

Bluetooth Dongle install

1. Insert the CD for the Bluetooth Dongle.
2. Select English…and then follow the prompts. When you reach the end restart the computer.
3. Insert the Dongle.
4. Once the computer has recognized your dongle, it will pop a screen where you can name your device. (You may see the Found New Hardware screen…you will want to install it automatically.)

   Make note of each Computers Names it will come in handy in some of the later steps.
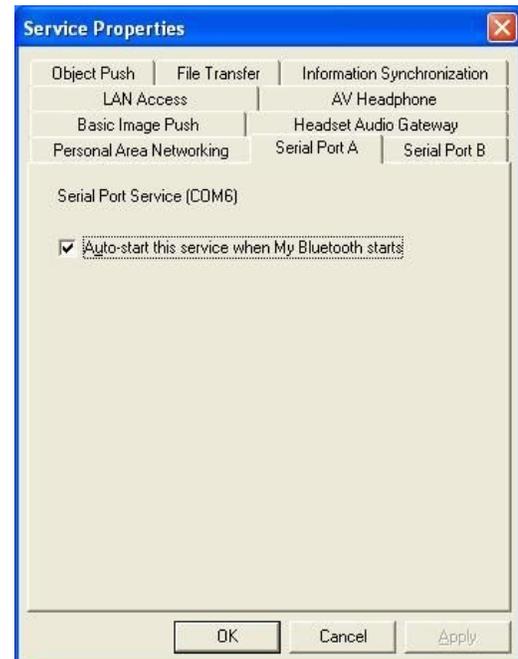

5. Once this is done you will see your Bluetooth icon in the bottom right screen it should be grayed out. Insert your Bluetooth Dongle and it will turn to Blue and White this is important because this tells you that Windows has recognized that you have the dongle inserted and is ready to go.

6. You should now have the BT main screen on your Desktop area. If not double click on the Bluetooth icon in the bottom right corner. You should get the screen below:

7. Click on Services.
8. Click on Properties
9. Click on the Tap that says Serial Port B
10. Uncheck Auto-start this service when My Bluetooth starts.
11. Click on Apply.
12. Now click on the Tab that says Serial Port A.
13. Uncheck Secure connection if checked
14. Make note of the (ComX) number that is given Com__.
    Note: Denoto Users will insert this number when they are setting up for incoming data from the Court reporter. THE Court reporter will use this number for the Workstation port.
15. Click on Ok. This will close the Service Properties window.
16. You should be back at the BlueSoleil main screen where the Orange ball is, click on My Bluetooth.
17. Click on Security.
18. Select Low under Security.
19. Click on Ok.

Note: The Denoto user will insert the Com Number as it they are directed by the Denoto User's manual.
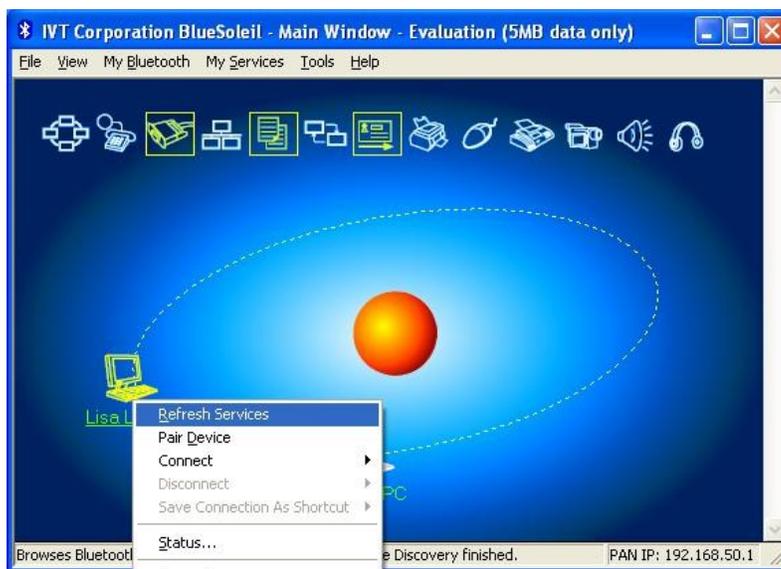

The Court Reporter will use the Com number for their Workstation port.

**Connecting the Court Reporters computer to the Denoto Computer**

Click on the Orange ball in the center of the BlueSoleil window. This will search for all available BlueTooth Devices. You should see the other Bluetooth Device which you gave a name to earlier in these steps.

Follow these steps to connect your computers:

1. Right click on the Computer that you are connecting too.
2. Click on Refresh Services. At the top of the screen you will see the services that are available, outlined in yellow. Below is a picture of that screen:

3. Now to   connect both
   computers…   Right click on
   the Serial   connection at

the top of the screen…see picture below for location of the Serial connection:

4. You will now see a line that connects from the Orange ball which is your computer to the Denoto Computer. At the bottom it says connected. Both blue tooth icons located in the bottom right of your computer screen will be green and white.
